

We welcome our teen-aged volunteer actors for the CERT Simulation Drill! You have done a terrific job in the past.

Remember if you are under 18 years old you need to have the consent form signed by your parents. Bring it with you.

To make things run even more smoothly this time, we'd like you to be aware of the following expectations:

1. You must stay in character at all times, except in the case of an actual emergency. Sometimes this means you have to stay on the floor or behind a table or some such prop for the entire exercise. There will be breaks, of course.
2. Accept that sometimes it's boring to wait around. That's the name of the game. It would be fine to have an i-pod or some such item for the waiting times. Please don't use them when the CERTs are searching and rescuing.
3. Please resist socializing with your friends. We want you to have an enjoyable time, but we need to have your attention.
4. Unless you are being made-up, please stay out of the moulage room. It gets too confusing with extra people in there.

We really need you to live up to these expectations. In the event that you are not able to do so, we will call your parents and have them pick you up.

Thanks!

The CERT team.
